

Outpatient Ultrasound Service

Offering a unique and cost-efficient imaging experience for clients and pets in the greater Seattle region.

NORTHWEST
VETERINARY IMAGING

23914 56th Ave W

Mountlake Terrace, WA 98043

info@northwestvetimage.com

Outpatient ultrasound services are now being offered at our facility in Mountlake Terrace.

No examination or ER fees means that patients can have the diagnostic studies they need without additional expense. Following the procedure, patients are referred back to their primary care veterinarian.

Electronic reporting allows for the quick transfer of results to primary care veterinarians for seamless continuity of care.

Both drop-off and client-waiting appointments are available.

- Owners scheduling for a client-waiting appointment are welcome to wait for their pet while the scan is being performed
- Preliminary results will be communicated directly to the client at the conclusion of the study
